

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

FOREIGN.

EGYPT.

Plague—Comparative Statement.

During the period from January 1 to March 30, 1916, 405 cases of plague with 194 deaths were notified in Egypt. The cases were distributed in nine Provinces, with 1 case each in Alexandria and Suez. The largest number of cases occurred in the Provinces of Assiout and Fayoum, with 137 cases and 113 cases, respectively.

During the period from January 1 to April 1, 1915, 23 cases of plague were notified in Egypt, as against 18 during the corresponding period of 1914. The total number of cases notified during the year 1915 was 285, with 120 deaths.

GREAT BRITAIN.

Examination of Rats—Liverpool.

During the two weeks ended April 8, 1916, 407 rats were examined at Liverpool. No plague infection was found.

GREECE.

Further Relative to Cholera at Corfu.¹

During the period from March 9 to 28, 1916, 30 fatal cases of cholera were notified among the civil population of the island of Corfu.
